

Yurii Linetskyi

FRONTEND-FOCUSED
FULL-STACK DEVELOPER

CORE SKILLS

Frontend

React · Next.js · TypeScript · JavaScript ·
React Native · Expo · Tailwind CSS ·
shadcn/ui

Backend & Data

Node.js · Express · PostgreSQL · Prisma ·
Supabase · Neon · REST APIs

State, Auth & Delivery

TanStack Query · Redux · Zustand ·
NextAuth · OAuth · JWT · React Hook Form
· Zod · Git · GitHub · Vercel · Stripe · Bubble
· AI integrations

PROFESSIONAL STRENGTHS

◆ Product ownership

Own features end to end: clarify requirements, design implementation, build, test, document and deliver.

◆ Production problem-solving

Diagnose workflow and data issues, then improve reliability, performance and maintainability.

◆ Reliable delivery

Translate business needs into maintainable solutions with attention to testing, security and UX.

PROFESSIONAL SUMMARY

Frontend-focused full-stack developer with 3 years of commercial experience delivering SaaS products, backend workflows and low-code systems. Strong in React, Next.js and TypeScript, with hands-on ownership of authentication, data models, Stripe, AI integrations, production debugging and performance improvements.

EXPERIENCE

Frontend-focused Full-stack Developer

UDEX

Aug 2023 - Present
Remote | Ongoing project basis

Commercial SaaS development across frontend, backend workflows and low-code systems. Collaboration continues on an on-demand project basis.

- Delivered frontend and full-stack features using React, Next.js, TypeScript and Bubble.
- Built dashboards, reusable UI, complex forms, role-based flows and API integrations.
- Designed data models and backend workflows for authentication, Stripe and AI-powered features.
- Investigated production issues and improved reliability, performance and maintainability.
- Worked directly with remote teammates to translate changing client requirements into production-ready solutions.

PRODUCT WORK

Founder & Full-stack Developer

KantinApp — Independent Product

Ongoing
Hamar, Norway

Multi-school canteen platform for students and administrators.

- Built an Expo mobile app and Next.js admin/backend with PostgreSQL and Prisma.
- Implemented role-based access, voting, analytics, push notifications and offline-ready flows.
- Preparing a pilot at Hamar Katedralskole.
- Repository: github.com/dipSyxx/KantinApp
